

We Offer Total Tanium Service — From “Go-Live” to Thrive

At Chuco, we live and breath Tanium — and we have a track record that proves it. Our team has executed projects for over 100 companies across a diverse range of industries, including: financial services, insurance, technology, retail, manufacturing, and automotive companies.

We Deliver at Scale

Through years of hands-on experience, we’ve developed a deep understanding of what it takes to make organizations successful with Tanium at scale. In the process, we’ve developed extensive best practices for tackling common enterprise use cases and the skill to handle a variety of cutting-edge and one-off scenarios.

As we’ve grown, we’ve organized ourselves to work in the ways that best serve our clients. Often that means engaging on a specific project with an established timeline and defined goals.

Increasingly our customers have asked us to serve as a virtual member of their internal Tanium team. In response, we’ve created a new engagement models, including **managed services**, that offer even higher touch engagement from our team, on demand.

So whether you’re starting your Tanium journey, or investing in an ambitious vision, we’re ready to support your long term success.

Chuco Managed Services

Taking on day-to-day operational responsibility for administering Tanium across your organization

Chuco Project Engagements

Advisory Services: Assessing objectives and setting direction for your long term Tanium success
